

SOCIAL PROJECT 2021/22

Strahlende Augen Macedonia

End of December and beginning of January is the season when Royal Rangers Macedonia organizes Social Project. The past three years we organize the Social Project together with our dear friends, Royal Rangers from Bielefeld and Stuttgart, Germany. We are packing and

distributing parcels for kids, we buy wood and food baskets for families at social risk. We have reached many people in the past years, and we continue this year with new vision and heart to help the ones in need, people that many don't even know they exist in the community. The plan for this year is to pack minimum 200 parcels for kids and to buy minimum 30 food boxes for families at social risk. We will be visiting families and distributing the aid to their homes in different towns in Macedonia. We are thankful for every Euro Cent that you invest in this project and we believe that together we are making difference for many families and many kids. We will be happy to share with you the report and some of the stories from this project in the middle of January 2022, when everything is finished. Thank you for your partnership!

Mihail Kolev
